GENERAL INFORMATION

Delegates are invited to discover typical places in Paris and to meet and renew acquaintances.

The 3rd International Drug Hypersensitivity Meeting will be held from Friday 11 April 2008 to Sunday 13 April 2008.

To make early reservation is strongly recommended. All rooms will be reserved on a first-come, first-served basis.

Registration fees include: admission to all congress sessions (except workshops), congress documents, 2 lunch boxes and coffee breaks.

The deadline for abstract submission is 15 January 2008.

For specific questions regarding registration and accommodation, please contact:

Email: dhm3@mci-group.com

UNDER THE AUSPICES OF

PARIS – FRANCE / PALAIS DES CONGRES

11-13 April 2008

SYMPOSIA

1 Immunology of drug hypersensitivity

2 Pharmaco-epidemiology, pharmaco-vigilance

3 Genetics of drug hypersensitivity

4 Prediction of drug hypersensitivity

5 Update on delayed cutaneous reactions

6 Update on viral drug hypersensitivity

Workshops

1 Introduction to the concept of drug hypersensitivity

2 Pharmaco-epidemiology in the world: how accurate are they?

3 How preventive models are relevant to drug hypersensitivity

4 How to predict allergic models for drug hypersensitivity

5 Understanding the pre-sensitization step

6 Sensitivity and covering the preliminary topic list list

Coordinators:

1 Immunology of drug hypersensitivity:

- B. Gerber (Switzerland)
- B. Bégaud (France)
- J-P. Lepoitte
- T. Shiohara (Japan)
- J. Uetz
- P. Jan (Canada)
- B. Gouttard (France)

2 Pharmaco-epidemiology, phamacovigilance:

- A. Bircher (Switzerland)
- M. Castells (USA)
- Z. Ikezawa (Japan)
- F. Geissmann (France)
- B. Schmeller (Germany)

3 Genetics of drug hypersensitivity:

- D. Hauser (Switzerland)
- F. Geissmann (France)
- P. Musette (France)
- J. Uetz

4 Prediction of drug hypersensitivity:

- E. Fierro (Spain)
- M. Mockenhaupt (Germany)
- N. Shear (Canada)
- K. Tschopp (Switzerland)
- P. Friedman (UK)

5 Update on delayed cutaneous reactions:

- C. Hauser (Switzerland)
- F. Geissmann (France)
- P. Musette (France)

6 Update on viral drug hypersensitivity:

- C. Hauser (Switzerland)
- F. Geissmann (France)
- P. Musette (France)

Coordinators:

1 Introduction to the concept of drug hypersensitivity:

- C. Hauser (Switzerland)
- F. Geissmann (France)
- P. Musette (France)

2 Pharmaco-epidemiology in the world: how accurate are they?

- P. Jan (Canada)
- B. Gouttard (France)

3 How preventive models are relevant to drug hypersensitivity

- B. Gerber (Switzerland)
- B. Bégaud (France)

4 How to predict allergic models for drug hypersensitivity

- T. Shiohara (Japan)
- J. Uetz

5 Understanding the pre-sensitization step

- P. Jan (Canada)
- B. Gouttard (France)

6 Sensitivity and covering the preliminary topic list list

Coordinators:

1 Introduction to the concept of drug hypersensitivity:

- B. Gerber (Switzerland)
- B. Bégaud (France)
- J-P. Lepoitte
- T. Shiohara (Japan)
- J. Uetz

2 Pharmaco-epidemiology in the world: how accurate are they?

- A. Bircher (Switzerland)
- M. Castells (USA)
- Z. Ikezawa (Japan)

3 How preventive models are relevant to drug hypersensitivity

- D. Hauser (Switzerland)
- F. Geissmann (France)

4 How to predict allergic models for drug hypersensitivity

- E. Fierro (Spain)

5 Update on delayed cutaneous reactions:

- C. Hauser (Switzerland)
- F. Geissmann (France)

6 Update on viral drug hypersensitivity:

- C. Hauser (Switzerland)

Coordinators:

1 Introduction to the concept of drug hypersensitivity:

- C. Hauser (Switzerland)
- F. Geissmann (France)
- P. Musette (France)

2 Pharmaco-epidemiology in the world: how accurate are they?

- P. Jan (Canada)
- B. Gouttard (France)

3 How preventive models are relevant to drug hypersensitivity

- B. Gerber (Switzerland)
- B. Bégaud (France)

4 How to predict allergic models for drug hypersensitivity

- T. Shiohara (Japan)
- J. Uetz

5 Understanding the pre-sensitization step

- P. Jan (Canada)
- B. Gouttard (France)

6 Sensitivity and covering the preliminary topic list list

Coordinators:

1 Introduction to the concept of drug hypersensitivity:

- B. Gerber (Switzerland)
- B. Bégaud (France)
- J-P. Lepoitte
- T. Shiohara (Japan)
- J. Uetz

2 Pharmaco-epidemiology in the world: how accurate are they?

- A. Bircher (Switzerland)
- M. Castells (USA)
- Z. Ikezawa (Japan)

3 How preventive models are relevant to drug hypersensitivity

- D. Hauser (Switzerland)
- F. Geissmann (France)

4 How to predict allergic models for drug hypersensitivity

- E. Fierro (Spain)

5 Update on delayed cutaneous reactions:

- C. Hauser (Switzerland)
- F. Geissmann (France)

6 Update on viral drug hypersensitivity:

- C. Hauser (Switzerland)

Coordinators:

1 Introduction to the concept of drug hypersensitivity:

- B. Gerber (Switzerland)
- B. Bégaud (France)
- J-P. Lepoitte
- T. Shiohara (Japan)
- J. Uetz

2 Pharmaco-epidemiology in the world: how accurate are they?

- A. Bircher (Switzerland)
- M. Castells (USA)
- Z. Ikezawa (Japan)

3 How preventive models are relevant to drug hypersensitivity

- D. Hauser (Switzerland)
- F. Geissmann (France)

4 How to predict allergic models for drug hypersensitivity

- E. Fierro (Spain)

5 Update on delayed cutaneous reactions:

- C. Hauser (Switzerland)
- F. Geissmann (France)

6 Update on viral drug hypersensitivity:

- C. Hauser (Switzerland)

Coordinators:

1 Introduction to the concept of drug hypersensitivity:

- B. Gerber (Switzerland)
- B. Bégaud (France)
- J-P. Lepoitte
- T. Shiohara (Japan)
- J. Uetz

5 Update on delayed cutaneous reactions:

- C. Hauser (Switzerland)
- F. Geissmann (France)

6 Update on viral drug hypersensitivity:

- C. Hauser (Switzerland)
Welcome messages

Dr. Jean-Claude Roujeau
EAACI President

Roy Gerth van Wijk

We hope that this exchange will stimulate development in this highly interdisciplinary area of medicine and research and thus contribute to the avoidance of side effects of drugs.

Recent progresses in drug hypersensitivity understanding and diagnosis have been tremendous, thanks to immunology, immunopathology, toxicology, genetic, pharmacology, pharmacogenetic, epidemiologic and clinical research. This field definitely needs new ideas and connections from specialists of different backgrounds. Establishing an international network of excellent clinical and research specialists is beneficial for each of us.

In this context, the third international meeting on drug hypersensitivity (so called DHM3) is a logical step. We are happy to support this meeting, as we did previously. We also value the continuous efforts of the EAACI Interest Group on Drug Allergy, chaired by Pascal Maouel-Paladyn.

We would like to welcome you to Paris, the magnificent capital of France.

We are proud to announce the participation of more than 400 experts from 46 different countries.

On behalf of the organizing committee, I would like to express our gratitude to the EAACI Scientific Committee and to the EAACI Executive Committee for their continuous efforts in supporting drug allergy and drug hypersensitivity research.

The meeting will be held at the Parc des Expositions de Paris-Nord, Villepinte, stand 1, on the outskirts of Paris.

The scientific program, which is divided into 4 sessions, will focus on drug hypersensitivity. The sessions will be held from 10:00 to 12:00 and from 14:00 to 18:00 on Friday, April 11, 2008.

Each session will be divided into 2 parts, each lasting 1 hour and 30 minutes. The first part will be a scientific session, and the second part will be a clinical session.

The meeting will include a plenary session on Friday, April 11, 2008, at 10:00, followed by a break at 11:30. The plenary session will include invited speakers from different countries.

On Saturday, April 12, 2008, the meeting will include a plenary session on recent advances in drug hypersensitivity and a social event.

The meeting will conclude on Saturday, April 12, 2008, at 18:00.

We are looking forward to welcoming you to Paris for this exciting meeting.

The organizers

SCHEDULE AT A GLANCE

FRIDAY 11 APRIL 2008

Plenary session 22

11:00 In vitro tests for drug allergy: are they really useful?

11:30 The p/i concept dissected by a pharmacologist

12:00 Do we still need drug provocations?

12:30 Does a DRESS syndrome exist?

00:00 Break and visit of the exhibition of the Congress Center

00:00 Lunch break and visit of the press

14:00 What is new on the pharmacogenetics of drug hypersensitivity?

15:00 Effectiveness of tolerance induction to anti-cancer drugs

16:00 New drugs, new hypersensitivity reactions

17:00 What comes from the development of drug hypersensitivity? A Fishbowl

18:00 Drugs, adjuvant, adjuvantism, immunological mechanisms of drug allergy

19:00 Coffee break

20:00 Dinner

SCHEDULE AT A GLANCE

SATURDAY 12 APRIL 2008

Plenary session 33

09:00 Recent advances on immunologic mechanisms of drug allergy

10:00 Virus reactivation and drug hypersensitivity syndrome risk factor

11:00 Drug hypersensitivity: predictive value of preclinical tests

12:00 Oral adjuvant in immunological mechanisms of drug allergy

13:00 Coffee break

14:00 Fishbowl: Treatment

15:00 Oral adjuvant in clinical management of drug allergy

16:00 Coffee break

17:00 Last day of the exhibition of the Congress Center

18:00 Farewell dinner

19:00 Goodbyes
Welcome messages

Schedule at a glance
FRIDAY 11 APRIL 2008

OPENING ADDRESS 08:15 | 08:30
Welcome addresses by:
R. Gerth van Wijk – EAACI President
P. Demoly, JC. Roujeau – DHM3 co-Presidents

Plenary session 1 08:30 | 10:00
08:30 Epidemiology of hypersensitivity drug reactions
R.S. Stern, USA
09:00 The p/i concept dissected by a pharmacologist
K Park, UK
09:30 The limits in the clinical evaluation of drug hypersensitivity
A Bircher, Switzerland
10:00 | 11:00 Break and visit of the exhibition of the hosting CFA

Plenary session 2 11:00 | 12:30
11:00 In vitro tests for drug allergy: are they really useful?
W Pichler, Switzerland
11:30 Does a DRESS syndrome exist?
JC Roujeau, France
12:00 Do we still need drug provocations?
P Demoly, France
12:30 | 14:30 Lunch break

Plenary session 3 14:30 | 16:00
14:30 Virus reactivation and drug hypersensitivity syndrome risk factor
K Hashimoto, Japan
15:00 Drug hypersensitivity: predictive value of preclinical tests
M Pallardy, France
15:30 New drugs, new hypersensitivity reactions
J Lübbe, Switzerland
16:00 | 16:30 Break and visit of the exhibition of the hosting CFA

Plenary session 4 16:30 | 18:00
16:30 What is new on the pharmacogenetics of drug hypersensitivity?
M Pirmohamed, UK
17:00 Recent advances on immunologic mechanisms of drug allergy
JF Nicolas, France
17:30 Effectiveness of toleration induction to anti-cancer drugs
M Castells, USA
18:00 End
The 3rd International Drug Hypersensitivity Meeting will be held from Friday 11 April 2008 to Sunday 13 April 2008.

The official language of the meeting is English. There will be no simultaneous translation.

**Date**

The 3rd International Drug Hypersensitivity Meeting will be held from Friday 11 April 2008 to Sunday 13 April 2008.

**Venue**

The meeting will be held at the Palais des Congrès in Paris located at Porte Maillot.

**Registration**

Access to all sessions and all meeting activities is subject to registration. You may register and pay online on: www.dhm3.org

**Accommodation**

A range of hotel rooms have been booked by the congress office for DHM3 participants in the vicinity of the congress venue.

**Abstract**

Abstracts will be selected either for oral (included in symposia sessions) or poster presentation.

**Participation fees**

Participation fees include: admission to all congress sessions (except workshops), congress documents, 2 lunch boxes and coffee breaks.

**Contact**

Email: dhm3@mci-group.com
Tel: +33 1 53 85 82 82 – Fax: +33 1 53 85 82 8
24 rue Chauchat – 75009 Paris, France

DHM3 - MCI France

**Congress Office**

www.dhm3.org

**General Information**

The Scientific Programme Committee has selected the four following themes to be presented during the meeting. Speakers will present the very latest research results on fundamental and clinical aspects of drug hypersensitivity. The four following themes have been selected by the Scientific Programme Committee:

1. Prediction and risk factors, Diagnosis and treatment of drug hypersensitivity
2. Pharmaco-epidemiology, pharmacovigilance
3. Immunology of drug hypersensitivity
4. Drug hypersensitivity and skin, allergy, dermatology and immunology

**Symposiums**

Symposia on drug hypersensitivity focusing on fundamental and clinical aspects will be organized and chaired by specialists.

**Workshops**

Three Practical Workshops related to drug hypersensitivity

**Update on viruses in interconnection**

Coordinators: M. Blanca (Spain), A. R.

**Workshop 1** (Practical Workshop)

**Update on viruses in interconnection**

Coordinators: M. Castells (USA), A. Bircher (Switzerland)

**Workshop 2** (Practical Workshop)

**Clinical assessment of causality in drug hypersensitivity**

Coordinator: Z. Ikezawa

**Workshop 3** (Advanced Workshop)

**Immunology of drug hypersensitivity**

Coordinators: A. Romano (Italy), A. Barbaud (France)

**Workshop 4** (Advanced Workshop)

**Indication of drug hypersensitivity**

Coordinators: B. Gerber (Switzerland)

**Workshop 5** (Advanced Workshop)

**Prediction and risk factors, Diagnosis and treatment of drug hypersensitivity**

Coordinators: J. Uetrich (Japan), P. Musette (France)

**Workshop 6** (Practical Workshop)

**Pharmaco-epidemiology, pharmacovigilance**

Coordinators: B. Bégaud (France), T. Shiohara (Japan), N. Shear (Canada)

**General Information**

- The 3rd International Drug Hypersensitivity Meeting will be held from Friday 11 April 2008 to Sunday 13 April 2008.
- The official language of the meeting is English. There will be no simultaneous translation.
- The meeting will be held at the Palais des Congrès in Paris located at Porte Maillot.
- Access to all sessions and all meeting activities is subject to registration. You may register and pay online on: www.dhm3.org
- A range of hotel rooms have been booked by the congress office for DHM3 participants in the vicinity of the congress venue.
- Abstracts will be selected either for oral (included in symposia sessions) or poster presentation.
- Participation fees include: admission to all congress sessions (except workshops), congress documents, 2 lunch boxes and coffee breaks.
- The Scientific Programme Committee has selected the four following themes to be presented during the meeting. Speakers will present the very latest research results on fundamental and clinical aspects of drug hypersensitivity. The four following themes have been selected by the Scientific Programme Committee:
  1. Prediction and risk factors, Diagnosis and treatment of drug hypersensitivity
  2. Pharmaco-epidemiology, pharmacovigilance

  4. Drug hypersensitivity and skin, allergy, dermatology and immunology
- **Symposiums**
  - Symposia on drug hypersensitivity focusing on fundamental and clinical aspects will be organized and chaired by specialists.
- **Workshops**
  - Three Practical Workshops related to drug hypersensitivity
  - Three Advanced Workshops will aim at introducing hands-on training and will require the participants for different training sessions emphasizing on problem-solving below will be organised and chaired by specialists.
SATURDAY 12 & SUNDAY 13 APRIL 2008

Demonstrations.

Trial fields. They may be accompanied by practical training sessions emphasizing on problem-solving and covering the preliminary topic list listed below.

3 Advanced Workshops will aim at introducing scientists to new methodologies and latest tools used in the fields related to drug hypersensitivity.

3 Practical Workshops related to drug hypersensitivity will provide hands-on training and will require the preparation of knowledge between academic and industrial representatives.

With a high teaching value, these 120 minutes training sessions will be led by experienced specialists in the field.

It is planned that CME (Continuous Medical Education) credits will be offered by the European Accreditation Council. Further details will be soon available on the congress website.

The official language of the meeting is English. There will be no simultaneous translation.

The meeting will be held at the Palais des Congrès in Paris located at Porte Maillot.

Abstracts will be selected either for oral (included in symposia sessions) or poster presentation. Early reservation is strongly recommended. All rooms will be reserved on a first-come, first-served basis.

Registration to these events will require online registration.

Participation fees include : admission to all congress sessions (except workshops), congress documents, 2 lunch boxes and coffee breaks.

VenuE

The meeting will be held at the Palais des Congrès in Paris located at Porte Maillot.

Symposiums and Workshops:

Pharmaco-epidemiology, pharmacovigilance, immunology of drug hypersensitivity

Pharmacokinetics, pharmacodynamics, prediction and risk factors, diagnosis and treatment of drug hypersensitivity

Biochemical issues in the field.

The following sessions have been created under the chair of drug hypersensitivity of:

B. Bégaud (France)

B. Gerber (Switzerland)

C. Hauser (Switzerland)

F. Geissmann (France)

K. Brocko (Germany)

T. Shiohara (Japan)
