

EAACI Congress 2020 goes digital!

Bridging Innovations into Allergy and Asthma Prevention

Challenging times call for creative solutions, which also open new avenues for a more dynamic future. For this reason, **EAACI will organise its Annual Congress 2020 as a fully digital event, on 6-8 June 2020.**

Under the increasingly pertinent motto “**Bridging innovations into Allergy and Asthma Prevention**”, we will offer our delegates the opportunity to explore our rich scientific programme in a truly innovative way through virtual sessions, while having the possibility to discuss important topics with the speakers via the interactive Q&A.

Learn more on **EAACI.org** and stay tuned for more information, registration, congress logistics and the upcoming scientific programme.
