Data Controller
- hereinafter EAACI -

K.I.T. Group, provider of the EAACI Congress 2018 is committed to the protection of your personal data and guarantees it according to the German Federal Data Protection Act (BDSG) / EU General Data Protection Regulation (EU GDPR). All data is controlled by EAACI and processed by K.I.T. Group. Please note that this translation has only been provided to you for your convenience. Please request the original in German language for a legally binding document. By using this website or this service, personal information and technical data will be collected, stored, processed (and deleted). Please find an overview below:

Profile / Log-in Data
To use the profile, various personal information must be provided (last name, first name, gender, nationality, email, postal address and password). This data is required to provide individualized access to our services.

Registration
As part of the registration process, various personal information (name, address, contact details, etc.) will be collected as well as information required to complete your booking (desired booking type, participant type, additional booking options, etc.). Depending upon your booking type and preferences, payment data (account details, credit card details) may be collected as well. You may also be asked to provide information such as profession, field of study, etc. for statistical purposes.

REACT Fast
As part of the registration process, various personal information (name, address etc.) will be collected as well as information required to complete your booking (desired booking type, participant type, additional booking options, etc.). These data are required to generate the barcode that will allow rapid and smooth registration at the conference venue.

Certificate of Attendance
In order to provide certification, participants’ personal data (name, address, occupation, etc.) are required.

Accommodation
As part of the accommodation booking, various personal information (name, address, contact details, etc.) as well as data required to complete your booking (requested hotel, room type, length of stay, etc.) will be collected. Depending upon your booking type and preferences, payment data (account details, credit card details) may be collected as well. In addition to the procedures described in section “Processing & Distribution”, personal information and payment data will be forwarded to the respective hotels to secure the booking.

Abstracts
As part of the registration, various personal information (name, address, contact details, etc.) as well as information required to complete your submission (author status, registration data, membership data, etc.) will be collected. Furthermore, individual data and documents (scientific abstracts, application forms, supporting documentation, etc.) will be collected. This data may – at the discretion of K.I.T. Group – be made publicly accessible in print or in electronic form such as abstract books, scientific journals, conference programs, online databases and catalogues as well as on related websites.

Lead Capture
As part of the Lead Capture service, personal data (name, address, contact information) is collected and disclosed to third parties in the exhibition. These are used by the exhibitors for information and advertising purposes.
REACT Travel
As part of your booking process, various personal information (name, address etc.) will be collected and transmitted to our respective subcontractor or service provider according to § 11 BDSG (Federal Data Protection Act / Art. 28, 29 EU GDPR). The collected data will be used exclusively for the booking process and will not be passed onto third parties under any circumstances.

Automatic Technical Collection of Data
By using this website, various technical data will be collected automatically. Among this, but not restricted to, is the following information: operating system, browser type and version used, referrer URL, IP address, date and time of access. This data will be saved routinely and deleted automatically after an appropriate period of time. This data may be linked to individual user data. The use of some services may require the acceptance of cookies (text files that may, for example, contain your preferences and login data to allow automatic log-in and extended functionality). The usage of cookies can be configured in the settings of your computer; where you may also delete them.

Processing & Distribution
All data mentioned above will only be collected as necessary for the provision of the services described (non-optional fields). Additional data may be provided voluntarily (optional fields) to increase the quality of service. All data is being collected, saved, processed and deleted according to German data protection laws and regulations. Whenever necessary for the provision of services, data may be transmitted to sub-contractors or service providers. This may include transmission of data to other countries, including countries outside the European Union. Your data may be made available to governmental authorities, e.g. if a venue has increased security regulations. Your data may also be used for communication and information related to the event. According to your preferences stated in section “Acceptance” at the end of the registration form, your data may also be used for further purposes (see further paragraphs).

For a complete list of sub-contractors, service providers and Founder sponsors, please refer to page 4.

Right of Information
You may at any time request information on all your data, including data source, data recipients, and the purpose of data storage and processing. Please contact us using the contact details available in the “Contact” or “Legal” section of this website. To receive the requested information, you must prove that you are an eligible recipient.

Path Analysis
The protection of privacy during your visit at EAACI Annual Congress is very important to us. EAACI is committed to protect your personal data in compliance with applicable laws. Please read this Privacy Policy carefully before attending the EAACI Annual Congress and especially before employing any additional services offered to participants.

1. Processing of Location Data
You can choose to opt-in for electronic collection of your movements through the venue, especially at the exhibition floor and exhibition booths to analyze the attractiveness of different areas and activities in order to improve the Congress services. Besides internal use of EAACI, we may also provide this statistical data to our Founder sponsors in a form that does not enable them to identify individual participants. The collection is conducted by attaching an electronic tag to your conference badge that is automatically registered when you enter different areas at the congress venue.

2. Content of the Personal Data Register
If you opt in for disclosing your location data, we will collect information about your location and movements. This data will be created during the congress, when the electronic tag attached to your badge is registered at various locations of the venue. This location data includes your visits to exhibition floor and booths. In addition, the register contains information you have provided at the time of registering to the Congress, such as your profession, gender, age, country (demographic) and ID number of the electronic tag attached to your badge.
3. Transfers and Disclosures of Personal Data
We have engaged external partners to assist us in processing personal data of participants to the EAACI Annual Congress. These partners include professional congress organizer K.I.T. Group and Waytation who is a software provider. Our partners are committed to comply with our instructions and applicable laws when processing personal data. We do not transfer personal data out of EU/EEA area or Switzerland.

4. Data Security
Adequate technical and organizational measures are in place to protect personal data against any unlawful forms of processing. Personal data is processed only by a limited number of people on a need-to-know basis. Personnel who access, process or disclose personal data receive appropriate training on how to handle such data.
In the event personal data is disclosed to a third-party service provider for processing, the provider is required to maintain the same level of protection that is provided by EAACI.

5. Data Subjects’ Rights
You have right to access your personal data at our register. If you note that such data is faulty or outdated, you may also ask it to be corrected or erased. Please address all enquiries concerning your rights and their use to EAACI mentioned below.

Data Protection Official
Should you have any questions regarding the handling of your personal information, please contact our data protection official. Together with data protection staff, this person is also your point of contact for requests for information, suggestions or complaints:

Mr Holger van Wanrooy, Messe Berlin, Phone: +49 (0)30 3038-2889 or via email: datenschutzbeauftragter@messe-berlin.de
