Guideline name	Lead authors	Date published	Date to be revised	Dissemination and implementation status	AGREE 2 critique
Anaphylaxis: Guidelines from the European Academy of Allergy and Clinical Immunology	Muraro A, Roberts G, Worm M, Bilò MB, et al	2014 - Allergy	2017, unless there are important advances before then	Distributed in book form at EAACI meeting, available as a download from EAACI website, numerous presentation.	Used Agree 2 approach
Diagnosis and management of food allergy: Guidelines from the European Academy of Allergy and	Muraro A, Werfel T, K Hoffmann-Sommergruber, Roberts G, Beyer K, et al	2014 - Allergy	2017, unless there are important advances before then	Distributed in book form at EAACI meeting, available as a download from EAACI website, numerous presentation.	Used Agree 2 approach
Primary Prevention of food allergy: Guidelines from the European Academy of Allergy and Clinical	Muraro A, S Halken, SH Arshad, K Beyer , et al	2014 - Ped Allergy Immunol	2017, unless there are important advances before then	Distributed in book form at EAACI meeting, available as a download from EAACI website, numerous presentation.	Used Agree 2 approach
Food Allergy Health Related Quality of Life: Guidelines from the European Academy of Allergy and Clinical Immunology	Muraro A, Dubois AE, DunnGalvin J , A et al	2014 - Allergy	2017, review and updated accordingly; important advances will be incorporated prior to this date if required.	Distributed in book form at EAACI meeting, available as a download from EAACI website, numerous presentation.	Used Agree 2 approach
EAACI food allergy and anaphylaxis guidelines: managing patients with food allergy in the community	Muraro A, Agache, I, Clark, A et al	2014 - Allergy	2017, unless there are important advances before then	Distributed in book form at EAACI meeting, available as a download from EAACI website, numerous presentation.	Used Agree 2 approach
EAACI Food Allergy and Anaphylaxis Guidelines. Protecting consumers with food allergies: understanding food consumption, meeting	Muraro, A, Hoffmann-Sommergruber, K, Holzhauser, T, Poulsen, LK et al	2014 - Allergy	2017, unless there are important advances before then	Distributed in book form at EAACI meeting, available as a download from EAACI website, numerous presentation.	Used Agree 2 approach
EAACI guidelines on allergen immunotherapy: Prevention of allergy	Susanne Halken, Desiree Larenas-linnemann, Graham Roberts et al	2018--Pediatr Allergy Immunol	2022, unless important advances before then	Copies of EAACI AIT Guidelines book provided at PAAM 2017 and 2018 Congress. Video clip highlighting guideline on EAACI website. Numerous presentations.	Used Agree 2 approach
EAACI Guidelines on Allergen Immunotherapy: Hymenoptera venom allergy	Gunter J Sturm, Eva-Marie Varga, Graham Roberts et al	2018 - Allergy	2022, unless important advances before then	Copies of EAACI AIT Guidelines book provided at PAAM 2017 and 2018 Congress. Video clip highlighting guideline on EAACI website. Numerous presentations.	Used Agree 2 approach
EAACI Guidelines on Allergen Immunotherapy: IgE-mediated Food Allergy	Giovanni B Pajno, Montserrat Fernandez-Rivas, Stefania Arasi et al	2018 - Allergy	2022, unless important advances before then	Copies of EAACI AIT Guidelines book provided at PAAM 2017 and 2018 Congress. Video clip highlighting guideline on EAACI website. Numerous presentations.	Used Agree 2 approach
EAACI Guidelines on Allergen Immunotherapy: Allergic rhinoconjunctivitis	Graham Roberts, Oliver Pfaar, Cezmi A Akdis et al	2018 - Allergy	2022, unless important advances before then	Copies of EAACI AIT Guidelines book provided at PAAM 2017 and 2018 Congress. Video clip highlighting guideline on EAACI website. Numerous presentations.	Used Agree 2 approach
EAACI Guidelines on Allergen Immunotherapy: House dust mite-driven allergic asthma	I Agache, S Lau, CA Akdis, S Smolinska, M Bonini, et al	Accepted for publication - Allergy	2022, unless important advances before then		Used GRADE approach to evidence appraisal
Eczema management	Thomas Werthel	In development			
Biological therapies	Ioana Agache	In development
