

Room Name	Session Type Name	Session Number	Session Title	Abstract Number	Abstract Title	Author First name	Author Surname	Author Country
Hall B	Oral Abstract Sessions	OAS 01	Mechanisms of food allergy	0003	Deficient naive cd4+ t-cell function and epigenetic remodelling of metabolic genes in childhood food allergy.	David	Martino	Australia
Hall C	Oral Abstract Sessions	OAS 02	Pediatric asthma and rhinitis	0021	Comparison of bronchial and nasal allergen provocation in children and adolescents with bronchial asthma and house dust mite sensitization	Vanessa	Passlack	Germany
Hall D	Oral Abstract Sessions	OAS 03	Pan-omics in respiratory and skin disorders	0014	Risk variants in the CTLA4 gene locus associate with asthma susceptibility and regulatory T cell function	Anand	Kumar Andliappan	Singapore
Hall 2	Oral Abstract Sessions	OAS 04	Drug hypersensitivity risk factors	0011	Liver involvement complicating SIS/TEN in an HIV endemic setting	Jonny	Peter	South Africa
Hall 3	Oral Abstract Sessions	OAS 05	Immune sensors in allergy	0028	The carbohydrate A10 (Ca10) from Ehrlich tumor cells promote tolerance by acting on dendritic cells	Leticia	Martin de la Cruz	Spain
Hall A	Oral Abstract Sessions	OAS 06	Innate immune response in asthma	0030	Impaired conventional dendritic cell migration in absence of IL-17 in a model of experimental allergic asthma correlates with attenuated airway hyperresponsiveness and airway inflammation	Adan	Chari Jirno	Germany
Hall D	Oral Abstract Sessions	OAS 07	Updates in urticaria	0040	Clinical characteristics of patients with autoimmune chronic spontaneous urticaria and predictors of positivity of basophil activation test	João	Marcelino	Portugal
Hall 2	Oral Abstract Sessions	OAS 08	Allergic conjunctivitis diagnosis and management	0043	Conjunctival allergen provocation tests may influence diagnosis and clinical decision	Maria João	Vasconcelos	Portugal
Hall 5	Oral Abstract Sessions	OAS 09	Biologics: Targeting type 2 responses	0052	AllergoOncology: An immunologically relevant rodent model demonstrates safety of a tumour-specific IgE therapy	Heather	Bax	United Kingdom
Hall A	Oral Abstract Sessions	OAS 10	From contact metal allergy to mastocytosis	0054	Allergic contact dermatitis caused by dexpantenol - a not so rare sensitizer	Santiago	Luis	Portugal
Hall B	Oral Abstract Sessions	OAS 11	Anaphylaxis and eosinophilic esophagitis	0060	Anaphylaxis to pumpkin seed is caused by a 2S albumin	Cristina	Bueno	Spain
Hall B	Late Breaking Oral Abstract Sessions	LB OAS 1	Clinical management of food allergy and eosinophilic esophagitis	1640	Efficacy of Dupilumab on Components of a Novel Histological Scoring System for Active Eosinophilic Esophagitis in Randomized Placebo-controlled Phase 2 Clinical Trial	Margaret	Collins	United States
Hall 2	Late Breaking Oral Abstract Sessions	LB OAS 2	New frontiers in allergen immunotherapy	1647	Potential treatment of pollen food syndrome using birch AIT - a study investigating the effect of the SQ tree SLIT-tablet on symptoms during an apple challenge	Tilo	Biedermann	Germany
Poster Discussion Zone 1	Poster Discussion Sessions	PDS 01	Drug and skin allergy in childhood	0218	Acute urticaria in pediatric emergency department of a general hospital (Late Breaking Abstract)	Cátia	Santa	Portugal
Poster Discussion Zone 2	Poster Discussion Sessions	PDS 02	One airway, one disease	0232	Allergen-based immunotoxins as potential tools for the treatment of respiratory allergies	Rodrigo	Lazaro	Spain
Poster Discussion Zone 3	Poster Discussion Sessions	PDS 03	Drug allergy: Epidemiology and clinical aspects	0246	General Anaesthetic Allergy: The experience from a UK tertiary Allergy Centre	Fawzia	Ali	United Kingdom
Poster Discussion Zone 4	Poster Discussion Sessions	PDS 04	Immunological responses to allergen immunotherapy	0259	Profile of antigen specific T-cells during initiation of wasp venom immunotherapy determined by direct ex-vivo antigen-reactive T cell enrichment	Saleh	Samira	Germany
Poster Discussion Zone 1	Poster Discussion Sessions	PDS 05	Innovative interventions targeting the immune response	0268	Establishing the presence of a sphingosine mimetic, RB-011, as an inhibitor of allergic diseases	Dave	Yip	Australia
Poster Discussion Zone 3	Poster Discussion Sessions	PDS 06	Epidemiology and risk factors for pediatric allergy	0281	The prevalence and characteristics of pollen fruit syndrome in Japanese children	Mari	Sasaki	Japan
Poster Discussion Zone 1	Poster Discussion Sessions	PDS 07	Consequences of environmental changes for exposure	0300	Personal allergy symptom forecasting system	Olga	Ritenberga	Latvia
Poster Discussion Zone 2	Poster Discussion Sessions	PDS 08	Diagnosis of food allergy	0310	Egg allergen specific IgE diversity predicts resolution of egg allergy	Thanh	Dang	Australia
Poster Discussion Zone 3	Poster Discussion Sessions	PDS 09	Hymenoptera allergy	0318	Identification of major bee venom allergen Api m 1 IgE epitopes and characterization of their corresponding mimotopes	Abida	Zahirovic	Colombia
Poster Discussion Zone 4	Poster Discussion Sessions	PDS 10	Methodological and geographical aspects in IgE molecular profiling	0341	A venom 5 like protein from Aedes aegypti is a common sensitizer in children with papular urticaria induced by mosquito bites.	Victoria	Marrugo	Colombia
Poster Discussion Zone 2	Late Breaking Poster Discussion Sessions	LB PDS 1	Trendsetting in immunotherapy vaccines	1670	Altered microbial community structure and metabolism in cow's milk allergic mice receiving oral immunotherapy and fructo-oligosaccharides	Marlotte	Vonk	The Netherlands
Poster Discussion Zone 4	Late Breaking Poster Discussion Sessions	LB PDS 2	Immunology and therapeutic management of asthma and airway disease	1681	Distinct "asthma" phenotypes of four mouse strains correlate with different responses to house dust mite (HDM) allergens	Joni Valeska	Lund	Germany
Poster Exhibition	Thematic Poster Sessions	TPS 01	Asthma: From bench to bedside	0630	Development and characterization of effective DNAszymes against human rhinoviruses	Daniel	Potaczek	Germany
Poster Exhibition	Thematic Poster Sessions	TPS 02	Clinical aspects of asthma	0659	Authorizations process analysis of an immunotherapy prospective cost-effectiveness study in asthma patients sensitized to mites: The ITACA study (Late Breaking Abstract)	David	De Olanó	Spain
Poster Exhibition	Thematic Poster Sessions	TPS 03	Occupational allergy, asthma and rhinitis	0667	A case of dimethyl fumarate causing a multisystem occupational allergic reaction.	Jane	Hsieh	Canada
Poster Exhibition	Thematic Poster Sessions	TPS 04	Environmental inflaming allergens	0683	Incidence of IgE-mediated respiratory sensitization by two dominant avenue trees of Kolkata megacity	Moumita	Bhowmik	India
Poster Exhibition	Thematic Poster Sessions	TPS 05	Laboratory tests and biomarkers in allergy diagnosis	0697	Basophil activation test in clinical and research use: Requirement for standardization and external quality assurance	Sanna	Edelman	Finland
Poster Exhibition	Thematic Poster Sessions	TPS 06	Different aspects of atopic dermatitis and contact dermatitis	0715	Results of late patch test readings with dental screening materials in 75 adult patients	Mojca	Bizjak	Slovenia
Poster Exhibition	Thematic Poster Sessions	TPS 07	Types of angioedema and urticaria differential diagnosis	0734	Ace inhibitor- related angioedema – the value of history taking	Maria	Marques	Portugal
Poster Exhibition	Thematic Poster Sessions	TPS 08	Different aspects of allergic symptoms	0746	Phenotyping allergic respiratory diseases: An unsupervised classification using latent class analysis	Ana	Pereira	Portugal
Poster Exhibition	Thematic Poster Sessions	TPS 09	Pediatric food allergy	0766	Investigation of heat and matrix effect on milk proteins' allergenicity and the development of hypoallergenic food products	Hande	Suer	Turkey
Poster Exhibition	Thematic Poster Sessions	TPS 10	Clinical aspects on drug hypersensitivity	0782	Unusual presentation of a serum sickness-like reaction due to sulfonamides.	Silvia	Sartorelli	Italy
Poster Exhibition	Thematic Poster Sessions	TPS 11	Clinical aspects of ENT and ocular allergy	0817	Safety and reproducibility of nasal allergen provocation test	Ibon	Eguiluz-Gracia	Spain
Poster Exhibition	Thematic Poster Sessions	TPS 12	Allergens and sensitisation	0824	Fel d 1-specific human ige monoclonal antibodies with natural heavy and light chain pairing	Anna	Pomés	United States
Poster Exhibition	Thematic Poster Sessions	TPS 13	Common primary immunodeficiencies and malignant diseases	0849	Microcrystalline tyrosine (MCT), a promising depot adjuvant for effective T cell responses in virus-like particle-based vaccines in murine melanoma models	Martin	Bachmann	Switzerland
Poster Exhibition	Thematic Poster Sessions	TPS 14	Innovative Immunomodulation strategies	0862	Studies on anti-allergy effect of glucomannan extract from porang (Amorphophallus oncophyllus) tuber	Ardhika	Ulfah	Indonesia
Poster Exhibition	Thematic Poster Sessions	TPS 15	Immunotherapy: Vaccines and efficacy	0869	Costs and resource use in allergic rhinitis	Lisa	Elliott	Denmark
Poster Exhibition	Thematic Poster Sessions	TPS 16	Immunotherapy in the clinic 1	0906	Molecular allergens contribution in the selection of grass and/or olive immunotherapy	Joana	Cosme	Portugal
Poster Exhibition	Thematic Poster Sessions	TPS 17	Diagnosis of food allergy 1	0921	Food allergy to tree nuts, peanut and sesame seeds: sensitization and clinical reactivity patterns	Maria João	Vasconcelos	Portugal
Poster Exhibition	Thematic Poster Sessions	TPS 18	Management of food allergy 1		no abstract was suitable for the prize			
Poster Exhibition	Thematic Poster Sessions	TPS 19	Immunotherapy: From allergen characteristics to therapeutic	0953	Adaptive immune responses in allergic subjects in response to natural allergen exposure	Julia	Eckl-Dorna	Austria
Poster Exhibition	Late Breaking Thematic Poster Sessions	LB TPS 01	Immunity and regulators of health and disease	1736	Skin stem cells express GATA3 independent of the IL-4 receptor expression	Ileana Maria	Ghiordanescu	Romania
Poster Exhibition	Late Breaking Thematic Poster Sessions	LB TPS 02	Drug allergy: Various aspects	1769	Delayed hypersensitivity reactions to taxane can progress to Type I reactions: Management with desensitization.	Teodorikez	Jimenez-Rodriguez	Spain
Poster Exhibition	Late Breaking Thematic Poster Sessions	LB TPS 03	Occupational allergy / Air pollution and environmental allergies / Primary Immunodeficiency	1784	Effect of air cleaners (Intense pure Air® XL) on early and late asthmatic response in asthmatic subjects sensitized to cat in ALYATEC's environmental exposure chamber (EEC)	ALINA	Gherasim	France
