Established in 1979, Bio-Diagnostics is a niche bio-tech business and is the longest established Autoimmune company in the UK. Bio-Diagnostics now has four divisions Dermatology, Immunology, Immunohistochemistry and Type I Allergy. Type I Allergy: In 2016, Bio-Diagnostics was appointed by the leading Spanish allergen immunotherapy vaccine manufacturer, Inmunotek, to be their exclusive distributor for UK and Ireland. Inmunotek is a Multinational Madrid based Allergen Immunotherapy Vaccine Manufacturer, with a wide range of allergy diagnostic tests including Skin Prick Tests, SCIT and SLIT, as well as accessory products. Bio-Diagnostics are also the exclusive Distributor of Lincoln Diagnostics offering high-quality disposable allergy skin test devices from the USA. These lancets offer time and reagent savings as well as reduced discomfort for patients. In addition to the diagnostic allergy range Bio-Diagnostics also offer the innovative RhinoLight, a treatment for Seasonal and Perennial Allergic Rhinitis. Trial units are available for evaluation.
